

# PRODUCT DESCRIPTION

## Pretex 50.120

Impregnated Pretex 50.120 specialty paper is ideal for special applications where normal paper is simply not robust enough. We use selected pulp and synthetic fibers (polyamide and polyester) for production.

It is used wherever it is subjected to heavy loads in both wet and dry conditions.

The weather-resistant paper is particularly suitable for outdoor use.

### APPLICATION EXAMPLES FOR PRETEX PAPER

- Land, leisure and sport (orienteeing) maps
- Teaching and display boards
- Technical documentation
- Start numbers
- Outdoor plans, posters, large format advertising
- Pennants, tote bags, brochures and envelopes
- Building material labels
- Menus and placemats, ID cards
- Plant awards
- Resin impregnation in the wood-based materials industry

### CHARACTERISTICS

- An extra robust double-sided coated quality with increased synthetic fiber content
- Waterproof
- High strengths
- Good light and color fastness
- Withstands strong mechanical stress in wet and dry conditions
- Very good aging resistance
- High temperature resistance
- Resistant to many chemicals and solvents

### AVAILABLE SIZES

- A4 - 21cm x 29.7 cm (8.3" x 11.7")
- A3 - 42cm x 29.7 cm (11.7" x 16.5")
- Legal - 8.5" x 14"

### AVAILABILITY

- Blank sheets
- Custom printed sheets
